

Rosebud Mine Area F

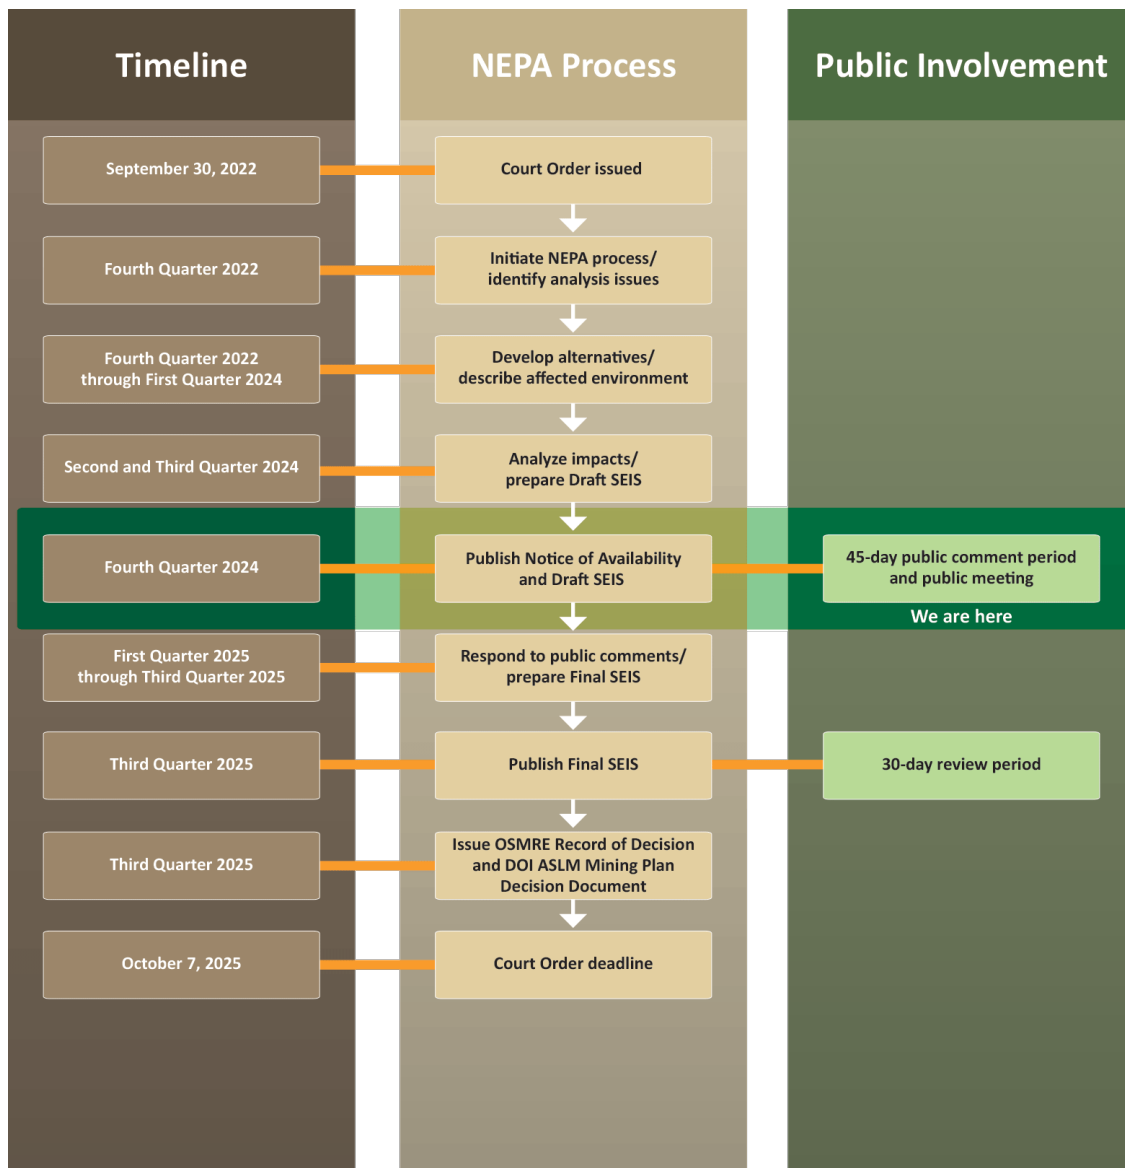

Federal Mining Plan Modification for Federal Coal Lease MTM 082186

Draft Supplemental Environmental Impact Statement

Environmental Review Process Overview

As required by the 2022 court order (see the “Project Overview” handout) and the National Environmental Policy Act, the U.S. Department of the Interior, Office of Surface Mining Reclamation and Enforcement (OSMRE) has prepared a Draft Supplemental Environmental Impact Statement (SEIS). OSMRE will accept public comments on the Draft SEIS for 45 days (through January 21, 2025).

Supplemental Environmental Impact Statement

How to Provide Comments on the Draft SEIS

You are invited to provide substantive comments on the Draft SEIS using the methods listed below. All comments received are part of the public record and will be available for public viewing. All comments must be received or postmarked by January 21, 2025, to be considered. Additional information regarding the SEIS may be obtained from Roberta Martínez Hernández at rmartinezhernandez@osmre.gov.

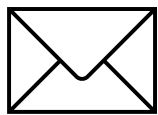

Keys to Making Effective Comments

Comments may be the most important contribution from citizens because they promote informed decision-making. Comments should:

- Provide sufficient detail for OSMRE to understand the commenter's position and why the issues raised are important to the decision.
- Be clear, concise, relevant to the analysis of the proposed action, and submitted during the public comment period.

Commenting is not a form of "voting" on an alternative. OSMRE will respond to individual comments or groups of comments in the Final SEIS.

More information on how to prepare effective comments is available in *A Citizen's Guide to the National Environmental Policy Act; Having Your Voice Heard* (Council on Environmental Quality 2021), which is available at https://ceq.doe.gov/get-involved/citizens_guide_to_nepa.html.

Mail: Hard-copy Draft SEIS comments can be mailed to:
